

For submissions from colleagues in the USA:

Follow required packing/shipping regulations for Category B exempt animal specimen http://pe.usps.gov/text/pub52/pub52apxc_024.htm (see example below). We recommend sending samples by services that provide tracking information. If multiple uroliths are present from a patient, send a representative portion of all sizes and shapes. ****The Minnesota Urolith Center requires that samples be submitted dry, not in urine, blood, liquids, or preservatives****
