

Minnesota Urolith Center – Online Sample Information Submission

How to submit sample information online:

Log in at our website urolithcenter.org with your user name and password.

See "creating an online account" if you do not know your user name and password.

To enter submission information for a sample – Select → **New Sample** from the main menu.

Signed in

To complete your sample submission, follow these steps:

1. Select NEW SAMPLE and complete the online submission form.
2. Ship your sample using the address label provided.
3. Email notification will be sent to your clinic email address:
 - When sample information is received electronically
 - When the sample arrives
 - When results are ready

If you have any questions, contact us at 612-625-4221.

The submission information page will open. Enter the patient information by completing all the fields.

Owner: Jones
Patient: Tigger

Submit stones dry, in unbreakable container. Label the vial with the owner and patient name, place in a plastic bag, and securely attach the bag to this packing slip.

If you are shipping multiple samples, to ensure efficient processing, please attach each sample's packing slip to its corresponding vial.

Visit our website under 'How to Submit Samples' for packaging instructions to comply with shipping regulations.

The Second page will include:

Our laboratory address- This can be cut off and used as an address label on the package.

The Minnesota Urolith Center does not provide containers or prepaid mailers. Any shipping, duties, or customs inspection charges are the responsibility of the shipper. Domestic samples can be shipped via US Mail or through your preferred shipper. Sending specimens by a carrier that provides tracking will minimize transit delays. If shipping through the US Postal Service make sure sufficient postage is affixed.

A barcode/sample label – This can be attached to the specimen vial/bag.

An exempt animal specimen label – Place this on the outside of your package

Owner: Jones
Patient: Tigger

Cut out the above barcode label and attach to the specimen vial/bag.

Follow packaging instructions at: urolithcenter.org. Place the "Exempt Specimen" label below on the outside of your package.

**EXEMPT
ANIMAL
SPECIMEN**

If you are unable to print the packing slip, or the slip does not print correctly, **DO NOT reenter the sample** - this will create two records for the same patient sample.

To reprint your packing slip, follow these steps:

- Go to **Search** in the top navigation.
- You will see a list of samples recently submitted from your clinic.
- Select "**Reprint Packing Slip**" for the sample you need.

If you are unable to reprint the packing slip you can send us a copy of your confirmation email, or include a note listing your clinic name, patient and owner name, and sample number. Be sure to include the information "**SAMPLE SUBMITTED ONLINE**". We will be able to match the sample and online information when it is received in the laboratory.

If you notice an error on the packing slip – Write the corrected information on the submission form and we will correct the data when we receive the sample.
